

MedChi Network Services Coding Solutions

Keeping Your Practice As Healthy As
You Keep Your Patients

Where Imagination meets **Technology**

Med

MedChi Network Services offers a strong, relevant and value added set of ICD-9 & ICD-10 solutions that will enable our member physicians to manage their ICD- 9 & 10 Coding:

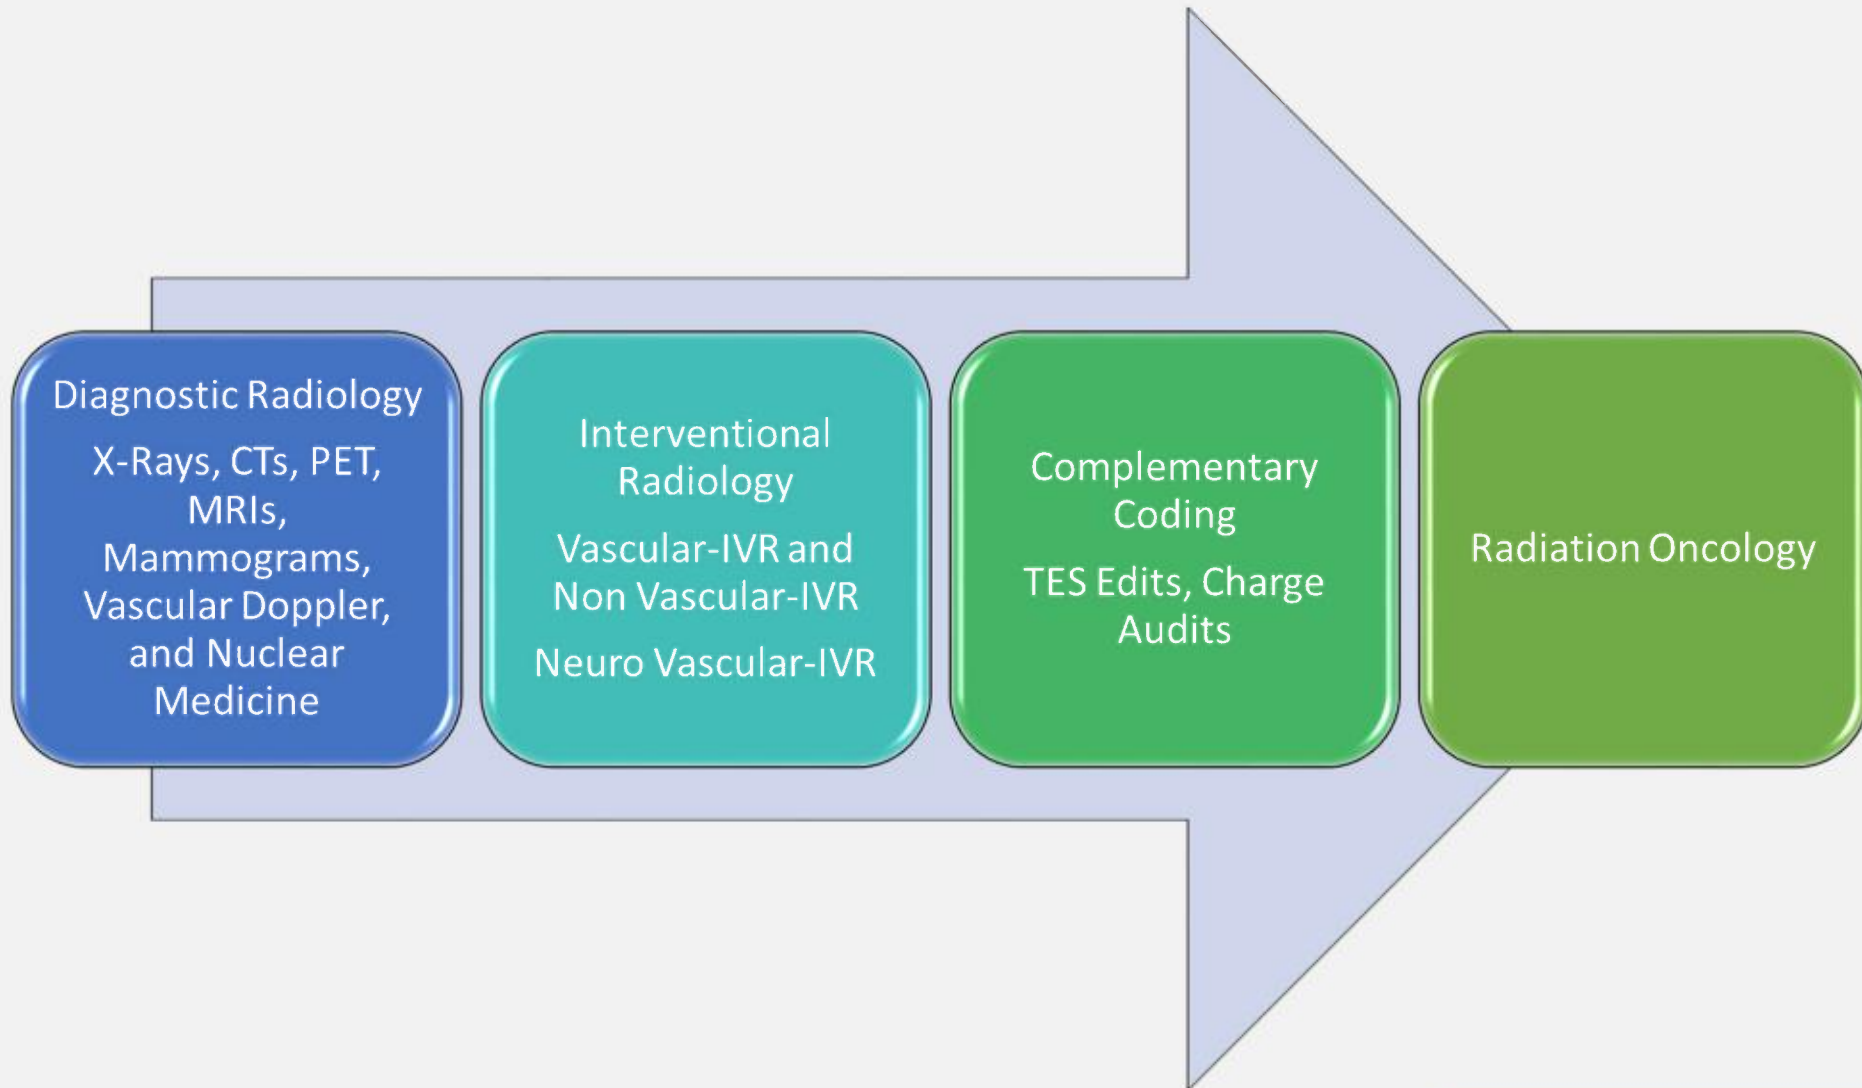

A large, horizontal, multi-colored arrow graphic pointing to the right. The arrow is composed of several overlapping, semi-transparent shapes in shades of red, green, purple, blue, and orange. The text is contained within a white rectangular box with a red border, which is positioned over the arrow.

With skilled, trained and certified ICD-9 and ICD -10 coding teams

With high levels of delivery productivity and accuracy

With relevant solutions that address critical process milestones and gaps

- All critical specialties
- Radiology, E/M, surgery, pathology

ICD-10 MEDICAL CODING

- For handling Payors needing either type
- Eg – Medicare cases coded in ICD-10, Worker's Compensation in ICD-9
- For handling transition months when both ICD-9 & 10 maybe be needed

ICD-9 & 10 SIMULTANEOUS CODING

- Business intelligence tool that provides documentation gap statistics & trends by specialty, practice, physician, gap reason

ICD-10 SPECIALTY SPECIFIC DOCUMENTATION GAP ANALYTICS

- To correct coding errors of core coding teams
- 100% or sample audits
- To correct auto coding errors

ICD-10 AUDITS

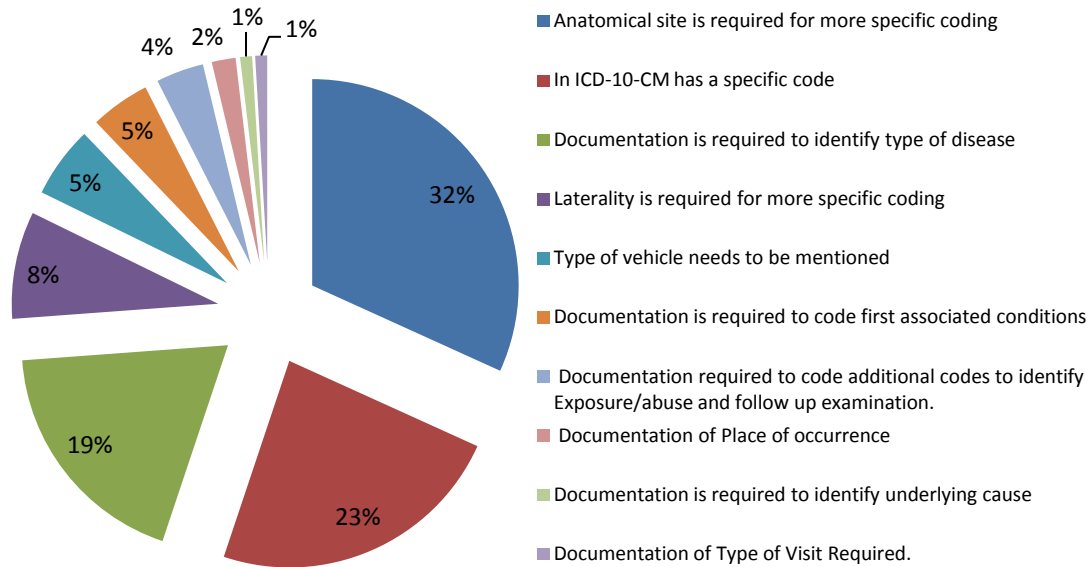

- Insight whitepapers
- Smart client training programs for quick orientation of ICD-10

ICD-10 IMPACT & CRITICAL ELEMENTS TRAINING

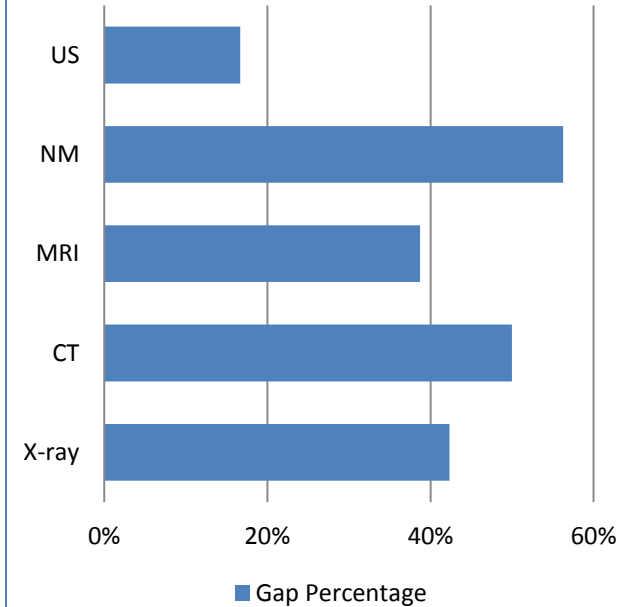

- To handle the expected high volumes of denials due to coding errors
- To efficiently correct coding errors and resubmit claims for resolution

ICD-10 AR DENIAL EDITS

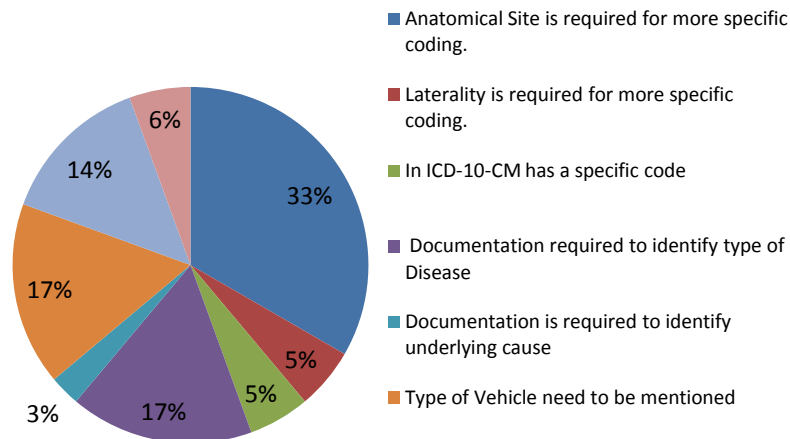

Percentage of Total Files with Documentation Gaps

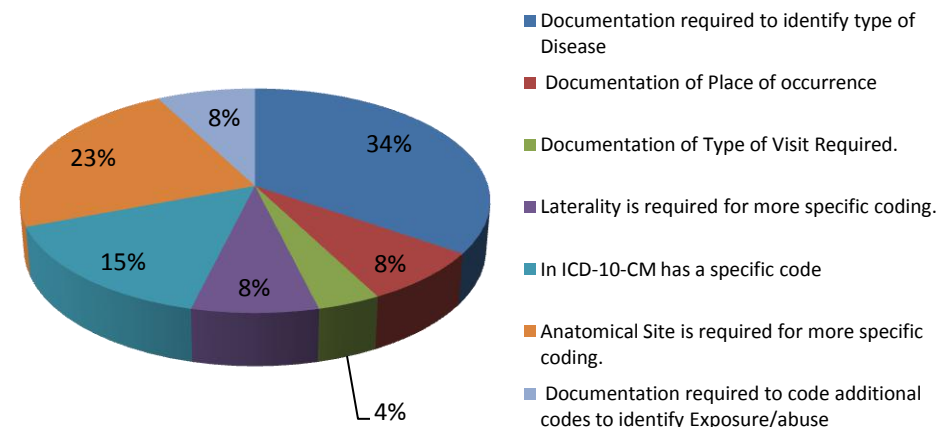

Gap Percentage by Modality

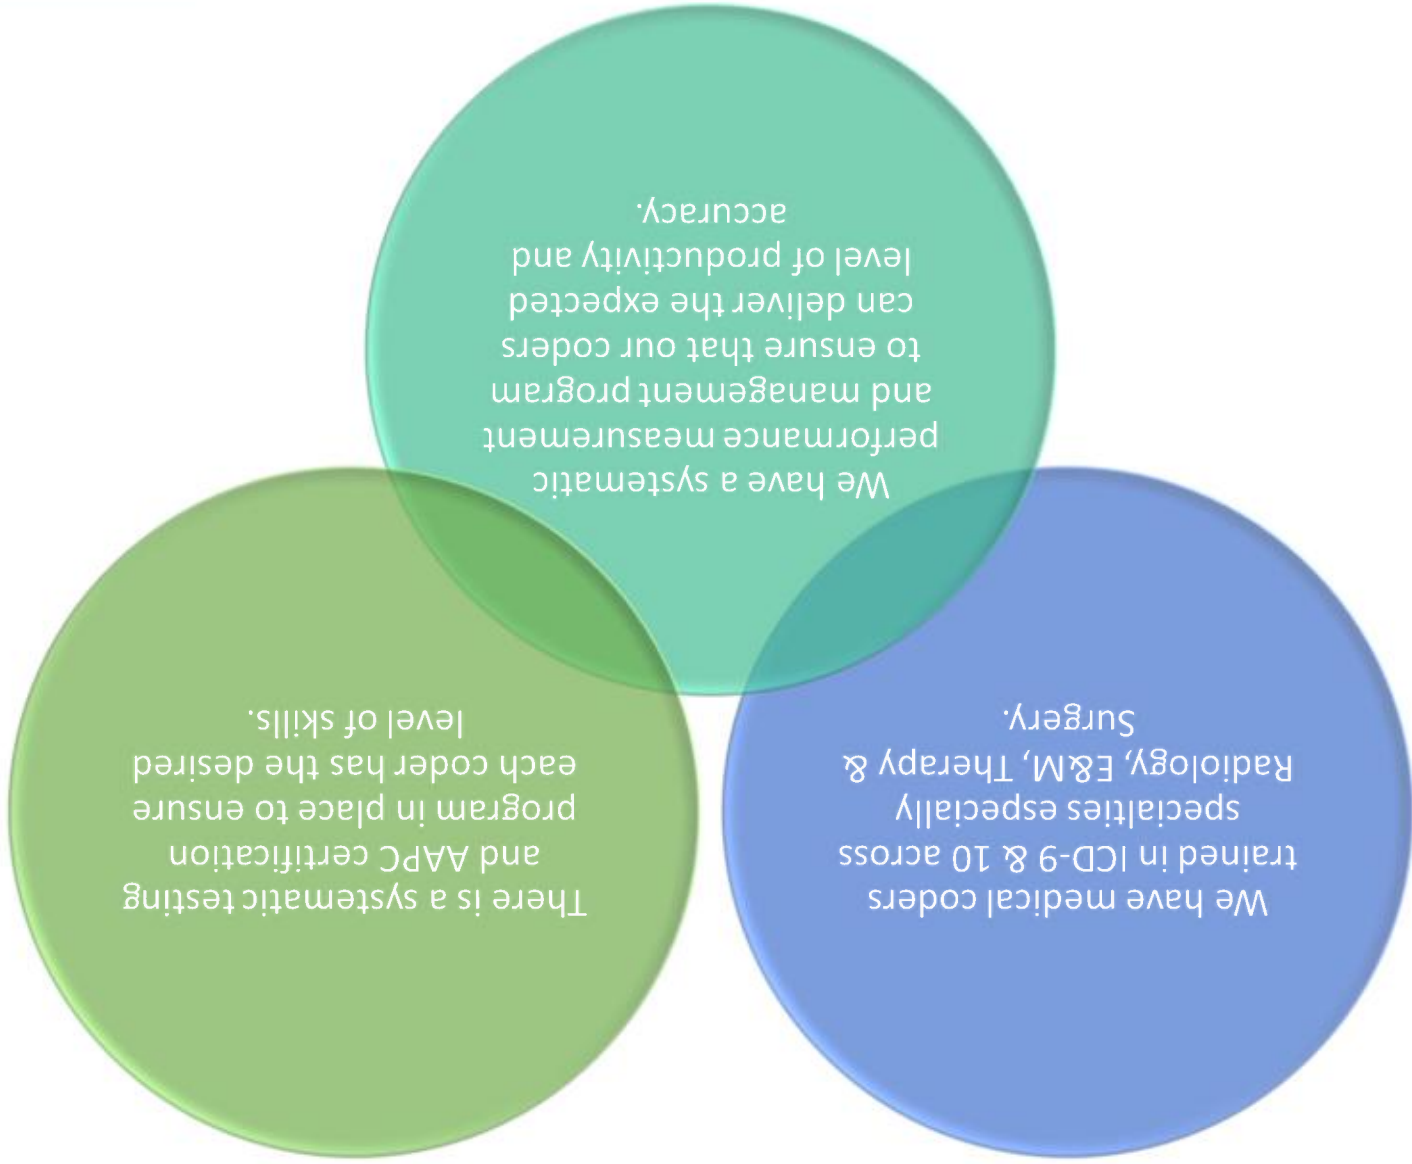

Gap-wise Percentage Breakup of Total X-Ray Files

Gap-wise Percentage Breakup of Total CT Files

- ✓ Experienced AAPC-certified medical coders specialized in Diagnostic and Interventional Radiology
- ✓ Experience handling high volume procedures in hospitals and radiology departments
- ✓ Systematic radiology coding workflow to prevent errors
- ✓ Experience identifying radiologist's documentation deficiencies to improve quality and optimize reimbursement
- ✓ Readiness for ICD-10 Transition (Radiology ICD-10 Gap Analysis and Dual ICD-9 and ICD-10 Coding)
