Resolution 17-16 – Support for Resolution

I support this resolution if the intent is to use the Wellbeing Committee to advocate for physician health and well being within provider systems. I would caution the House that if the intent is to create a clinical committee then Med Chi and components need to be mindful of liability costs and risks for such services. It may also be duplicative of efforts presently being provided by the Center for Healthy Maryland's Physician Health Committee and Physician Health Program.

Thomas E. Allen M.D.
Chair, Center Oversight Committee for the Physician Health Program
Baltimore County Delegate
