

**DocbookMD** is a physician-owned and run HIPAA-secure mobile directory and messaging platform, exclusive to medical society members, enabling physicians to collaborate across the medical community.

Over **15,000** physicians already use DocbookMD

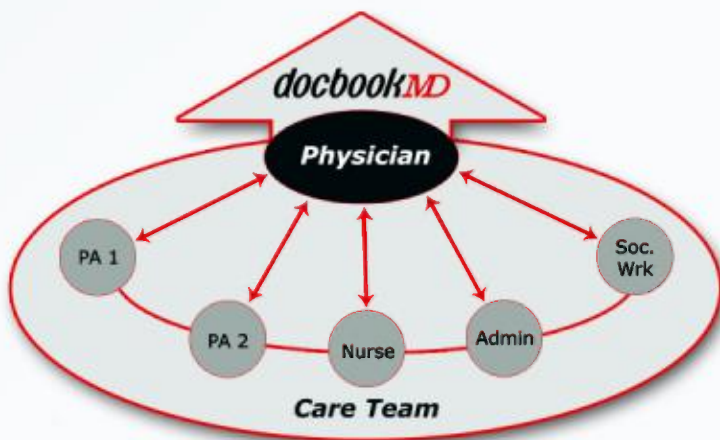

Access to group **and** community physicians

**No IT** integration requirements or costs

## DocbookMD offers medical society members:

-  "Gold-Standard" physician directory
-  HIPAA-secure messaging tool (P2P)
-  Detailed pharmacy directory
-  One-way secure fax (documentation)
-  Stat alerts (from lab or radiology)
-  Care Team collaboration (non-physician staff)

## Features for Physician Groups\*

Encourage in-group collaboration and increase outside referrals:

-  Be more accessible for physician referrals
-  Efficient coordination of patient care
-  Answering/paging service integration
-  Group branding and dedicated directory
-  Customized Activity Reports
-  No additional IT costs
