RE: **SUPPORT** – Senate Bill 184 – *Health Insurance – Diagnostic and Supplemental Examinations for Breast Cancer – Cost-Sharing*

---

On behalf of the Maryland State Medical Society, the Maryland/District of Columbia Society of Clinical Oncology, the Mid-Atlantic Association of Community Health Centers, and the Maryland Section of the American College of Obstetricians and Gynecologists, we submit this letter of **support** Senate Bill 184.

Diagnostic breast examinations or supplemental breast examinations are essential tools in the screening and diagnosis of breast cancer. An abnormal result from a breast cancer screen may require additional imaging, including mammographic views, ultrasound, or less frequently magnetic resonance imaging, to exclude or confirm the existence of cancer. However, many women, especially in marginalized populations, are not able to pay the required cost sharing for these potential life-saving tests. Too often, these women delay care until the cancer has spread to other parts of the body or has significantly worsened, decreasing the survival rate, and resulting in increased health care costs.

Therefore, the above-named organizations urge a favorable vote on Senate Bill 184.
