**Our CCM nurses have proven to reduce
patients' ER visits and hospitalizations**

**CMS
reimbursements
are up 50% for
FY 2022**

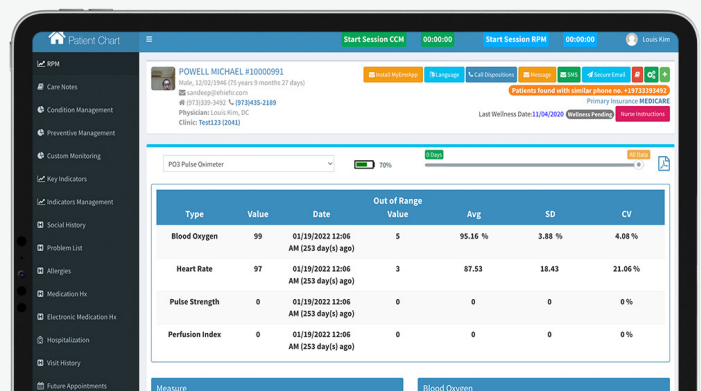

**Expand the reach of your
patient care beyond the office**

Our nurses act as a provider's extended staff, providing services tailored to a patient's needs. Through our monthly calls, we increase patient compliance, reduce hospital admissions, improve quality of life and more.

Technology to back you up

We have created a dedicated Care Coordination app that guides nurses to unique patient-oriented and disease-specific questions and charting. Our app has been designed to create extensive documentation to fulfill CMS requirements.

We build out a personalized Care Coordination Team for the seamless integration of Chronic Care Management into your practice.

Entirely CMS compliant.

With audit-proof documentation, comprehensive electronic care plans, easy access to patient health information & more.

Delivering the highest patient enrollment & compliance in the industry. Guaranteed.
