**Telemedicine**  
**Is Defined By What It Does**  
not  
Who does it  
or  
What does it  
or  
Where it is done  
or  
When it is done

**“That it will ever come into general use,  
notwithstanding its value, is extremely doubtful  
because its beneficial application requires much  
time and gives a good bit of trouble, both to the  
patient and to the practitioner because its hue  
and character are foreign and opposed to all our  
habits and associations”**
