

THANK YOU

for your interest in 100% Practice Participation with MedChi, The Maryland State Medical Society. MedChi is the only association representing all physicians in Maryland. As the state's strongest body

supporting physicians, MedChi and its components—medical societies in your county and Baltimore City—actively work to rebalance the legal and regulatory landscape for the benefit of you, your patients and the public's health.

It is a challenging time to be in private practice and we want to continue to achieve legislative successes on your behalf. We recognize that practices are increasingly demonstrating their commitment to the healthcare profession by assuring that all physicians in their practices are members.

MedChi and our components wish to show our appreciation for physicians that have united in an effort to improve healthcare in our state by becoming members. Therefore, we are offering practices with 100% MedChi members exclusive benefits. If physicians in your practice are not members we encourage you to revisit MedChi's extensive services. As you know, the more we work together the greater the outcomes will be for your profession and your patients.

There is strength in numbers!

Are Your Peers Members of MedChi?

MedChi, with its components, can celebrate greater achievements with your engagement. Members receive thousands of dollars worth of benefits for approximately what it would cost for tickets to the theatre or football game. When you consider the services MedChi provides and that a significant portion of MedChi dues is tax deductible, you will see that the value far outweighs the cost of membership. Visit www.medchi.org for the comprehensive list of benefits.
