Help, Resources, and Version History	<u>16</u>

<u>Purpose:</u> This resource provides a high-level overview of the Merit-based Incentive Payment System (MIPS) requirements to get you started with participating in the 2022 performance year.

## **How to Use This Guide**

Please note: This guide was prepared for informational purposes only and isn't intended to grant rights or impose obligations. The information provided is only intended to be a general summary. It isn't intended to take the place of the written law, including the regulations. We encourage readers to review the specific statutes, regulations, and other interpretive materials for a full and accurate statement of their contents.

## **Table of Contents**

The table of contents is interactive. Click on a chapter in the table of contents to read that section.

You can also click on the icon on the bottom left to go back to the table of contents.

# **Hyperlinks**

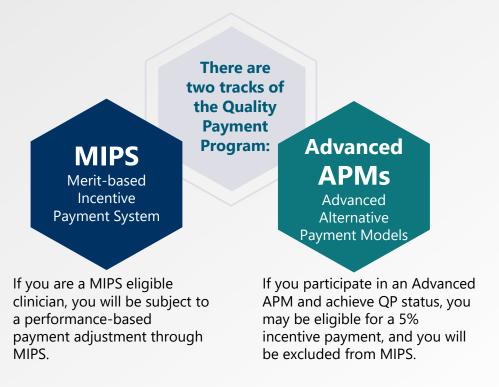

Hyperlinks to the <u>Quality Payment Program website</u> are included throughout the guide to direct the reader to more information and resources.

## What is the Quality Payment Program?

The Medicare Access and CHIP Reauthorization Act of 2015 (MACRA) ended the Sustainable Growth Rate (SGR) formula, which would have resulted in a significant cut to payment rates for clinicians participating in Medicare. MACRA advances a forward-looking, coordinated framework for clinicians to participate in the Quality Payment Program, which rewards value in 1 of 2 ways:

This guide will only cover the **MIPS participation in the Quality Payment Program**. For more information on participating in an Advanced APM, visit our Advanced <u>APM Overview webpage</u> and check out our APM related resources in the <u>Quality Payment Program Resource Library</u>.

## **What is the Merit-based Incentive Payment System?**

The Merit-based Incentive Payment System (MIPS) is one way to participate in the Quality Payment Program (QPP). The program describes how we reimburse MIPS eligible clinicians for Part B covered professional services and rewards them for improving the quality of patient care and outcomes.

Under MIPS, we evaluate your performance across multiple categories that lead to improved quality and value in our healthcare system.

## **Promoting Interoperability** Assesses your promotion of patient Quality engagement and electronic exchange of Assesses the quality of care you deliver health information using certified based on measures of performance. electronic health record technology (CEHRT). **Improvement Activities** Cost Assesses your participation in activities Assesses the cost of the care you provide that improve clinical practice and support based on your Medicare Part B claims. patient engagement.

## **What is the Merit-based Incentive Payment System? (Continued)**

### If you're eligible for MIPS in 2022:

- You generally have to submit data for the <u>quality</u>, <u>improvement activities</u>, and <u>Promoting Interoperability</u> performance categories. (We collect and calculate data for the <u>cost</u> performance category for you.)
- Your performance across the MIPS performance categories, each with a specific weight, will result in a MIPS final score of 0 to 100 points.
- Your MIPS final score will determine whether you receive a negative, neutral, or positive MIPS payment adjustment.
- Your MIPS payment adjustment is based on your performance during the 2022 performance year and applied to payments for covered professional services beginning on January 1, 2024.

## What is the Merit-based Incentive Payment System? (Continued)

Traditional MIPS, established in the first year of the QPP, is the original framework for collecting and reporting data to MIPS.

Under the traditional MIPS, participants select from 200 quality measures and over 100 improvement activities, in addition to reporting the complete Promoting Interoperability measure set. We collect and calculate data for the cost performance category for you.

In addition to traditional MIPS, 2 other MIPS reporting frameworks, designed to reduce reporting burden, will be available to MIPS eligible clinicians.

- The **APM Performance Pathway (APP)**, is a streamlined reporting framework available beginning with the 2021 performance year for MIPS eligible clinicians who participate in a MIPS APM. The APP is designed to reduce reporting burden, create new scoring opportunities for participants in MIPS APMs, and encourage participation in APMs.
- MIPS Value Pathways (MVPs) are subsets of measures and activities, established through rulemaking, that can be used to
  meet MIPS reporting requirements beginning with the 2023 performance year. The MVP framework aims to align and
  connect measures and activities across the quality, cost, and improvement activities performance categories of MIPS for
  different specialties or conditions. In addition, MVPs incorporate a foundational layer that leverages Promoting
  Interoperability measures and a set of administrative claims-based quality measures that focus on population health/public
  health priorities. There are 7 MVPs that will be available for reporting in the 2023 performance year:
  - 1. Advancing Rheumatology Patient Care
  - 2. Coordinating Stroke Care to Promote Prevention and Cultivate Positive Outcomes
  - 3. Advancing Care for Heart Disease
  - 4. Optimizing Chronic Disease Management
  - 5. Adopting Best Practices and Promoting Patient Safety within Emergency Medicine
  - 6. Improving Care for Lower Extremity Joint Repair
  - 7. Support of Positive Experiences with Anesthesia

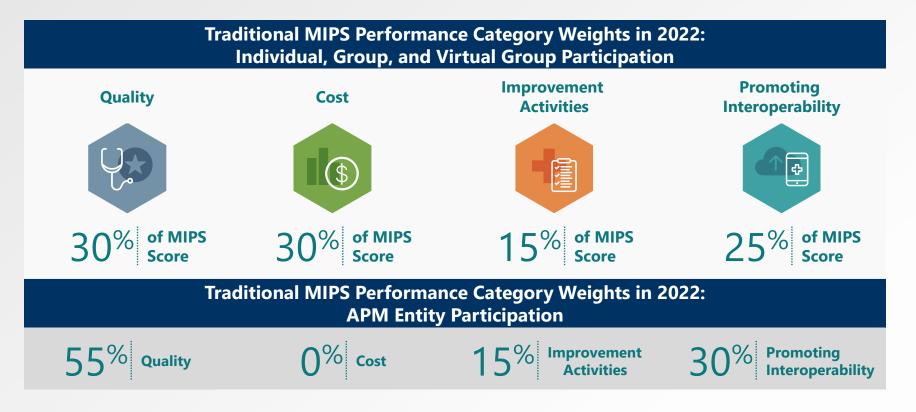

We encourage clinicians interested in reporting an applicable MVP to become familiar with the MVP's requirements in advance of the 2023 performance year. For more information on the finalized MVPs, please refer to the CY 2022 Physician Fee Schedule Final Rule. We'll also be adding more information to MIPS Value Pathways section of the QPP website.

## **MIPS Performance Category Scoring**

The MIPS performance categories have different "weights," and the scores from each of the categories are added together to give you a MIPS Final Score. Traditional MIPS performance category weights are dependent on the level for which you participate in MIPS.

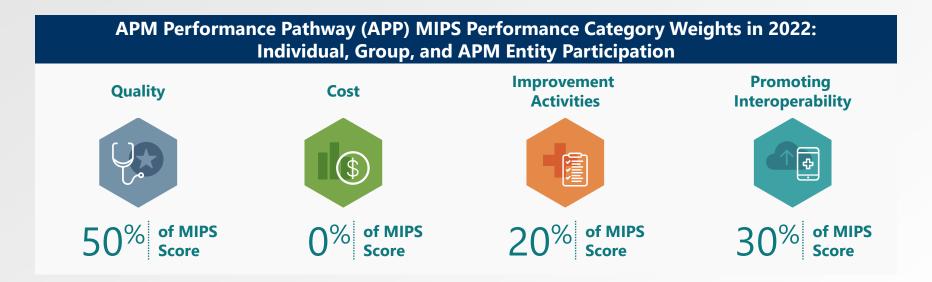

For example, MIPS eligible clinicians that participate in traditional MIPS as an APM Entity have different performance category weights than clinicians who participate in traditional MIPS as an individual, group, or virtual group.

## **MIPS Performance Category Scoring (Continued)**

The MIPS performance categories have different "weights" and the scores from each of the categories are added together to give you a MIPS Final Score.

## **Get Started with MIPS in 9 Steps**

### 9 Steps to Get Started

The 2022 MIPS performance year is January 1, 2022 to December 31, 2022. Following the performance year, you'll submit 2022 data for MIPS by March 31, 2023, which will result in a final score. You'll receive a positive, negative, or neutral payment adjustment in the 2024 payment year, which will be based on your 2022 MIPS final score.

### If you're an eligible clinician, you should:

Step 1: Check your initial MIPS eligibility (NOW)

- Check your current eligibility for the 2022 performance year by entering your 10-digit National Provider Identifier (NPI) in the <u>Quality Payment</u> <u>Program Participation Status Lookup</u> Tool.
  - Note: Your preliminary eligibility will be available by January 1, 2022 and your final eligibility will be available in December 2022.
- We determine your eligibility by evaluating your clinician type, the volume of care you provide to Medicare patients (low volume threshold), your Medicare enrollment date (you must have been enrolled before January 1, 2022) and your Qualifying APM Participant (QP) status.\*

Step 2:
Determine how
you will
participate
(NOW)

- **Individual:** collect and submit data for an individual clinician.
- **Group:** collect and submit data for all clinicians in the group.
- <u>Virtual Group:</u> collect and submit data for all clinicians in the CMSapproved virtual group.
- APM Entity: collect and submit data for MIPS eligible clinicians identified as participating in the MIPS APM.

Step 3:
Determine your reporting framework (NOW)

#### Traditional MIPS

- o MIPS reporting option available to all MIPS eligible clinicians
- Can be reported by individuals, groups, virtual groups and APM Entities.
- You select measures and activities to evaluate your performance across quality, improvement activities and Promoting Interoperability performance categories. We collect cost data for you.

#### APM Performance Pathways (APP)

- MIPS reporting option available to MIPS eligible clinicians in a MIPS APM
- Can be reported by individuals, groups, and APM Entities.
  - Required for all Medicare Shared Savings Program ACOs
- Uses a pre-determined measure set to evaluate your performance across quality, improvement activities and Promoting Interoperability.

## **Get Started with MIPS in 9 Steps (Continued)**

9 Steps to Get Started (Continued)

### If you're an eligible clinician, you should:

Step 4a:
Select and Perform
Your Measures and
Activities
(throughout 2022)

Step 4b:
Perform Your
Measures (APP)
(throughout 2022)

#### **Traditional MIPS**

- Quality: Most clinicians must select 6 measures, collecting data for each measure for the 12-month performance period (January 1-December 31, 2022).
  - To learn more, review the 2022 Quality Quick Start Guide.
- Improvement Activities: Most clinicians must select between 2 and 4 activities, performing each activity for a continuous 90-day period in Calendar Year (CY) 2022 (or as indicated in the activity's description).
  - To learn more, review the 2022 Improvement Activities Quick Start Guide.

Promoting Interoperability:
 Most clinicians must collect data using CEHRT on the required

using CEHRT on the required measures for the same continuous 90 (+)-day performance period in CY2022.

- To learn more, review the 2022 Promoting Interoperability Quick Start Guide.
- <u>Cost:</u> Clinicians don't need to collect or submit any data for cost measures. We collect and evaluate this data for you.
  - To learn more, review the 2022 Cost Quick Start Guide.

#### **APM Performance Pathway (APP)**

- Quality: Clinicians must collect data for a set of pre-determined quality measures for the 12month performance period (January 1-December 31, 2022). To learn more, review the Quality Measures: APP Requirements webpage.
- Improvement Activities:
  Clinicians who are MIPS APM participants and report to MIPS through the APP will automatically receive full credit for the Improvement Activities performance category score. To learn more, review the Improvement Activities: APP Requirements webpage.
- Promoting Interoperability:
   Clinicians must collect data on the 6 required measures for the same continuous 90 (+)-day performance period in CY2022.

To learn more, review the <u>Promoting Interoperability</u> <u>Measures: APP Requirements</u> webpage.

## **Get Started with MIPS in 9 Steps (Continued)**

### 9 Steps to Get Started (Continued)

The 2022 MIPS performance year is January 1, 2022 to December 31, 2022. Following the performance year, you'll submit 2022 data for MIPS by March 31, 2023 which will result in a final score. You'll receive a positive, negative, or neutral payment adjustment in the 2024 payment year, which will be based on your 2022 MIPS final score.

## If you're an eligible clinician, you should:

Step 5: Verify Your Eligibility (late 2022)

Check the Quality
 Payment Program
 Participation Status
 Lookup Tool in
 December 2022 to confirm that you remain eligible for MIPS and a payment adjustment.

Step 6: Submit Your Data (early 2023)

- Submit data yourself or with the help of a third party intermediary, such as a Qualified Registry or Qualified Clinical Data Registry (QCDR), between January 3 and March 31, 2023.
  - Visit the <u>Quality</u>
     <u>Payment Program</u>
     <u>Resource Library</u> to review the lists of CMS-approved Qualified Registries and QCDRs.

Step 7: Review Your Performance Feedback (mid-2023)

- Preliminary feedback is available as soon as data is submitted.
  Final performance
- Final performance feedback and payment adjustment information will be available in Summer 2023.

Step 8: Note the application of payment adjustments (throughout 2024)

 Review your claims to see payment adjustments for your 2022 performance applied to covered professional services billed in 2024. Step 9:
Preview your data
for public
reporting
(late 2023 or early
2024)

Preview your 2022
 MIPS performance
 data for public
 reporting in late 2023
 or early 2024.

# Help, Resources, and Version History

## Where Can I Get Help?

Contact the Quality Payment Program at 1-866-288-8292, Monday through Friday, 8 a.m.-8 p.m. Eastern Time or by e-mail at: QPP@cms.hhs.gov.

 Customers who are hearing impaired can dial 711 to be connected to a TRS
 Communications Assistant. Visit the Quality Payment
Program website for other help
and support information, to learn
more about MIPS, and to check
out the resources available in the
Quality Payment Program
Resource Library.

## **Additional Resources**

The <u>Quality Payment Program Resource Library</u> houses fact sheets, specialty guides, technical guides, user guides, helpful videos, and more. We will update this table as more resources become available.

Resource	Description
2022 MIPS Eligibility and Participation Quick Start Guide	A high-level overview and actionable steps to understand your 2022 MIPS eligibility and participation requirements.
2022 MIPS Quality Performance Category Quick Start Guide	A high-level overview and practical information about quality measure selection, data collection and submission for the 2022 MIPS quality performance category.
2022 MIPS Promoting Interoperability Performance Category Quick Start Guide	A high-level overview and practical information about data collection and submission for the 2022 MIPS Promoting Interoperability performance category.
2022 Improvement Activities Quick Start Guide	A high-level overview and practical information about data collection and submission for the 2022 MIPS improvement activities performance category.
2022 MIPS Cost Performance Category Quick Start Guide	A high-level overview of cost measures, including calculation and attribution, for the 2022 MIPS cost performance category.
2022 APP Toolkit	An overview of the reporting and scoring pathway for MIPS eligible clinicians who participate in MIPS APMs: the APP.
