

MedChi

Care Transformation
Organization

We are pleased to announce the Maryland Health Care Commission has awarded a grant to MedChi Care Transformation Organization (MedChi CTO) to engage qualifying primary care and specialty practices in a practice transformation program.

The program goal is to prepare small practices to participate in alternative care delivery models.

The MedChi CTO will assist practices in completing specific transformation milestones such as assessing their readiness for transformation, redesigning workflows, and providing training to practice staff.

We would be happy to assist you in completing the application as well completing the care transformation milestones.

The practice will receive a \$250 compensation for each of the first four milestones completed.

The application **will take no more than 15 minutes to complete.**

Please reach out to cto@medchi.org and we can email you the electronic application. We look forward to assisting you with your participation in this exciting new program.
