#	IF DISSATISFIED (SOMEWHAT OR VERY), WHY DO YOU FEEL THAT WAY? WHAT COULD HAVE BEEN DONE DIFFERENTLY?	DATE
1	Only certain banks would do the process. I was fortunate to have banking relationships with two and luckily one was doing the programs.	6/10/2020 11:50 AM
2	our business bank, Capital One did not process the application. Then we have to open account at another bank, re-applied.	6/10/2020 10:13 AM
3	PPP application process was very difficult and stressful. It required applications through 3 financial institutions and 4 weeks of intense, stressful efforts.	6/10/2020 6:54 AM
4	Sneaky PPP form with hidden lines to initial--missed by me and per my banker INNUMERABLE applicants--thereby slowing down the process, almost missed getting the loan as a result	6/9/2020 3:32 PM
5	My Boss applied but he was somewhat satisfied mainly because the loan was disbursed through his private bank	6/9/2020 2:38 PM
6	As said, my information regarding such matters is limited to what the administration elects to share with providers, which is scant.	6/9/2020 10:24 AM
7	terms and requirements keep changing	6/9/2020 10:19 AM
8	Better communication from bank	6/9/2020 10:05 AM
9	Huge-Mega Bank vs "Nano"Pediatric Practice which has never needed help before (no previous loans)So even though we have banked there for>20 years No personal interactions, in fact no communication which I am assuming is the reason NO communications from the bank for 4-6 weeks, reduction in what we got (I guess they took a significant portion as prepayment: never explained)Of course this cant have anything to do with the fact we are 2 minority physician-owners.	6/9/2020 9:58 AM
10	Our bank (a large bank) was unresponsive, slow to process and not helpful. What documentation was required to apply was vague. We were finally forced to apply with a small bank and were approved in one hour. The eligible amount of the loan was different depending on the bank or accountant helping with the application. As a result we may have been eligible for more assistance if eligible expenses had been known. Too many gray areas in all areas; terms/requirements/access to information increased anxiety while waiting for CORRECT information.	6/9/2020 8:31 AM
11	too complicated and too much paperwork	6/9/2020 7:06 AM
12	Bank of America did not take my application I have all my personal and business accounts with them but not loans or business credit cards Very frustrating I applied through a local bank where I have the mortgage for the office	6/9/2020 7:00 AM
13	The process of repayment is not clear. We don't know how to be sure it is a grant vs. a loan.	6/9/2020 6:39 AM
14	i'm not directly involved in the application b/c I work in a hospital	6/9/2020 6:33 AM
15	PPP process was chaotic. My bank did not have enough people to help, there was little guidance online, & my first application had to be re-done several times, which lead to me missing the first funding. I did receive on the second round.	6/9/2020 6:13 AM
16	I found the application process for the Paycheck Payback Protection terribly confusing and it took me over 5 weeks to get Phase I of the CARES ACT money. (It was mailed to the wrong address)	6/9/2020 6:03 AM
17	I didn't personally take part in the application but my managing partners couldn't get a loan from our usual bank and ultimately changed banks because a different bank came through for us.	6/9/2020 5:59 AM
18	MD state SBA covid grant depleted	6/8/2020 9:37 PM
19	The website was swamped the day they opened it, within hours. It took us part of the day to accumulate all the paperwork they wanted, and by then they said all money was gone. TO LARGE CORPORATE ENTITIES. We got the PPP loan on the second round. Without it, the 4 physicians in the practice worked for two months WITH NO PAY. Full workweek only covered overhead, which consists of 4 employees and rent.	6/8/2020 11:34 AM

	Bank, would only give PPP to customers with business, not personal, checking accounts.	
21	PPP application unclear of documents missing- just refused without explanation or chance to rectify	6/8/2020 8:54 AM
22	for PPP banks had very little information on how to guide us. once applications were made, bank of America could not update us. we withdrew our application and proceeded with a small bank	6/8/2020 8:43 AM
23	CARES doesn't provide any funding for providers accepting Medicaid. I have about 40% of my patients who are Medicaid and received no funding through this act which would have mitigated the cost of the vaccines that are sitting in my refrigerator because families are not bringing children for care at the same rate.	6/4/2020 5:13 AM
24	Dissatisfied with the county and state programs as I feel only the businesses that were "in the know" and were notified by "friends" in the gov and applied before the rest of the gen public was allowed to apply got the assistance.	6/3/2020 4:44 PM
25	I'm in a large single specialty practice. I could rely on our strong leadership and consultant services to maximize our application process.	6/3/2020 3:18 PM
26	It was a complete scramble. We did not receive anything the first go around, the bank we HAD to use had a lot of trouble and we called them constantly. The second time, we did receive the PPP but even now are afraid to use it until it is clear that we can, and when the actual date starts. Our accountant has had to work hours with us, and that alone was costly. I am grateful that we received it though.	6/3/2020 1:45 PM
27	It is not clear whether the terms of the ppp loans will change, understanding what is needed for applications for forgiveness and getting the banks to help with this process. They are eager to provide the loans but not as eager to help practices with guidelines to achieve the forgiveness.	6/3/2020 12:02 PM
28	very difficult to access payroll protection but it did finally come through. First HHS payment arrived; second payment never showed up, even though it was promised	6/3/2020 11:42 AM
29	Process was very complex and required my CPA involvement	6/2/2020 7:57 AM
30	we applied round 1. within hours of the release, were approved by the bank but program ran out of \$	6/2/2020 7:53 AM
31	DENIAL DUE TO BACKLOG OF APPLICATIONS	6/2/2020 7:05 AM
32	Changing regulations during application process and determining forgiveness, several weeks to get a response, though both our bank and the SBA were responsive to answering questions.	6/1/2020 10:51 PM
33	Terms of PPP are forgiveness are vague and changing. We had to apply for second round of PPP b/c didn't get any loan on first round. Took enormous amounts of staff and provider time to come up with contingencies should we not get any PPP funds	6/1/2020 7:42 PM
34	Regulations unclear & keep changing	6/1/2020 6:05 PM
35	However, I feel that if I went with a larger bank or didn't apply the same day the process for applications opened, I would have been left out.	6/1/2020 11:05 AM
36	Applications were difficult; access to a clear understanding of requirements was limited to nil State of MD grant program took forever to be dealt with and ended up not getting the grant - no transparency on how the decisions were made	6/1/2020 10:07 AM
37	It took a long time to get any answers and the application was very hard to understand. It would have been useful if I had someone to personally speak with to help me through the process. More money should have been made available as the 2.5 monthly amount is not going to cover expenses. More avenues should have been available to get the loans.	6/1/2020 9:49 AM
38	transparency from my employer (institution)	6/1/2020 8:20 AM
39	I have not been able to find anyone I can address questions Very uncertain and very concerned whether I will be able to request loan forgiveness because income is unlikely to improve and I will be unable to restore my payroll if the volume of patients does not improve, considering that other fixed expenses have not gone away	6/1/2020 8:08 AM

2	Make PPE available to practices from verified vendors.	6/10/2020 11:52 AM
3	provide PPE	6/10/2020 10:15 AM
4	Please get more PPE available to small practices such as ours. We are a internal medicaine practice serving the primary care needs of our patients. A significant portion of our practice are Medicare patients who prefer to see the doctor in person even though we offer Telehealth. We really need PPE for our safety and theirs.	6/10/2020 8:41 AM
5	understand that for private practices we will have to see less volume to keep up with cleaning processes and so reimbursement will have to increase to account for this to keep small practices afloat	6/10/2020 8:21 AM
6	I need better PPE. I have had great difficulty finding a supplier	6/10/2020 8:04 AM
7	Recognize increased cost and time of providing care and implementing precautions, and therefore adjust relative values and fees to compensate. The re-opened state must be viable	6/10/2020 6:57 AM
8	allowing duration for telehealth extended, as most of commercial insurances as of today have expiration date for it, i.e., 7/31, 6/30, etc	6/9/2020 5:50 PM
9	I don't know, It costs more to see a patient with PPE and Cleaning and Social Distancing	6/9/2020 5:24 PM
10	More PPE. I'd like a new N95 every day	6/9/2020 12:33 PM

asymptomatic individuals, as much as 40% I have seen. How can we screen out asymptomatic? In addition, in our experience, patients often are not honest about their symptoms or exposure. It makes sense to make limited PPE available to those at highest risk of exposure. However, once the PPE supply is no longer limited it makes most sense to recommend the more protective PPE to those at lower but real risk of COVID19 exposure. I work in the outpatient setting for a large health system that is stocking PPE for the hospital. Without a recommendation from the CDC that the higher level of PPE is ideal, the more protective PPE will never be available to our outpatient health center staff.

42	I am a psychiatrist and Mental Health led the way in our organization to do telehealth. Our visits have INCREASED since we started telehealth. We would like to continue it after the Coronavirus crisis is over, because it decreases no shows. It makes it easier for people with difficulties with transportation and or other reason for noncompliance to attend appointments. Also a lot of elderly have to do phone visits due to lack of smart phones and/or internet access. We would like to see equal reimbursement for telephone visits as telehealth/videoconference visits.	6/9/2020 6:12 AM

1	I took the demo, the telemedicine DRFIRST just requests a few more steps for patients to log in. A lot of our patients have problem to log in with our current straight-forward program already.	6/10/2020 10:20 AM
2	I Had just moved my office from DC to Maryland on March 1- great timing!	6/10/2020 8:07 AM
3	small office does not have enough staff or time to go through the paperwork or process if needed or wanted the grant(s)	6/9/2020 5:52 PM
4	already had several working telehealth platforms	6/9/2020 2:40 PM
5	not needed in our practice	6/9/2020 12:01 PM
6	already had it running	6/9/2020 11:44 AM
7	we had already implemented telehealth	6/9/2020 10:48 AM
8	We were able to start off with Zoom and or Facetime and now are using Doximity for Tele-medicine and our Electronic medical provider upgraded software to accommodate.	6/9/2020 10:06 AM
9	Mature telehealth program in place.	6/9/2020 9:23 AM
10	We work within JHHS as employees and utilize resources that are provided to us.	6/9/2020 9:13 AM
11	Too large a practice	6/9/2020 9:05 AM
12	Too difficult for most of our patients and physical exam portion of exam usually impossible or very frustrating	6/9/2020 7:53 AM
13	not applicable to hospital practice	6/9/2020 7:45 AM
14	I don't practice in Maryland	6/9/2020 7:29 AM
15	Because we already implemented telehealth(2 weeks before)	6/9/2020 7:05 AM
16	As pediatricians, do not have Medicare patients	6/9/2020 6:16 AM
17	Not interested in telehealth	6/9/2020 6:03 AM
18	I think we were able to get going on our own fairly readily	6/9/2020 6:02 AM
19	we already had telehealth in place	6/8/2020 7:17 PM
20	Using what's available already eg FaceTime, WhatsApp	6/8/2020 8:57 AM
21	My EMR system, eClinical Works already had a telehealth platform, Healow, that I am using. I am also using Doximity video.	6/4/2020 1:01 PM
22	Telemedicine was already implemented and I didn't have any time to research further if that made us ineligible for the ongoing costs of telemedicine.	6/4/2020 5:17 AM
23	We had already implemented telehealth by then.	6/3/2020 8:04 PM
24	I don't think we needed it	6/3/2020 7:12 PM
25	We had just qualified for PPP, and since we did not lay off any staff, and were able to see enough patients to pay our staff, cover our costs, we felt that the math involved in taking the grants, offset by a drop in future payments, was not necessary. It was great that Blue cross offered it, and we were going to do it if not for the last minute second round that allowed us a cash infusion via PPP.	6/3/2020 1:50 PM
26	Not much of a help	6/3/2020 1:33 PM
27	Grant amount was not significant, was able to get affordable vendor outside of MedChi.	6/3/2020 1:10 PM
28	We already billed telehealth once which made us not eligible.	6/3/2020 12:05 PM
29	process much too cumbersome and complicated. too many hours to decipher the rules.	6/3/2020 11:45 AM
30	We've already been using tele health for a year	6/2/2020 7:55 AM
31	whywaste time with these crappy programs	6/2/2020 5:47 AM

33	We are using doxy.me free telemedicine solution successfully with our current laptops	6/1/2020 7:27 PM
34	did not need	6/1/2020 1:12 PM
35	I'm a critical care physician - we are 24/7/365 at the bedside	6/1/2020 12:06 PM
36	Already had an EMR that allowed telehealth	6/1/2020 11:56 AM
37	did not need them - already had telehealth operational in my practice	6/1/2020 10:09 AM
38	The telehealth platform that they were suggesting was not very good.	6/1/2020 9:59 AM
39	Too cumbersome	6/1/2020 9:50 AM
40	We did not incur costs that I could count. Our existing IT system supported telehealth and work from home.	6/1/2020 8:04 AM

89	More N95 masks, and more surgical masks	6/3/2020 7:14 PM
90	People to come back to the office, both staff (who cannot come now because they do NOT have childcare - thank you very little Marc Elrich) and patients.	6/3/2020 4:53 PM
91	capturing lost income from cancelled elective imaging and procedures	6/3/2020 3:22 PM
92	A covid vaccine, and please continue the webinars . ALSO , some of the big payers have played exceedingly dirty during this crisis: they are UNITED healthcare who sent us coding, then denied payment for telehealth, then had people who gave wrong information to slow down payment. NOW they are letting us know that Telehealth will not be covered in the near future. Cigna is right behind them . Medicaid, BCBS,TRicare, have all been very good with the exception of the self funded. SOmeone needs to look at this for us. Also, it is essential that we have a quicker test for COVID, since even 2-3 day turn around in the general population is a problem in opening up our offices more. We are now engineering patient flow with the guidance of the websites, but even that is not 100% without rapid testing which I am sure everyone knows but that is an answer to this question.	6/3/2020 1:56 PM
93	For sustainability of the private practice, we need to open fully ASAP, otherwise many private medical care office will close and patients and community will suffer most.	6/3/2020 1:36 PM
94	More PPE (N95, Surgical Masks, Gowns)	6/3/2020 1:11 PM

Physician Needs: COVID-19 AMA and MedChi

95	Testing for personnel. Other countries check healthcare personnel every 15 days. After that PPE	6/3/2020 12:50 PM
96	financial relief from the lack practice revenue	6/3/2020 12:11 PM
97	funding. better patient education	6/3/2020 11:47 AM
98	gowns, hand sanitizer	6/2/2020 7:53 PM
99	a VACCINE!!!!	6/2/2020 7:18 PM
100	Increased reimbursement for telehealth	6/2/2020 9:22 AM
101	Seeing patients as before	6/2/2020 8:01 AM
102	stability	6/2/2020 7:56 AM
103	FUNDING ALLOCATION TO HELP PHYSICIANS; GETTING ACCURATE INFORMATION ABOUT THE PANDEMIC.,	6/2/2020 7:16 AM
104	money	6/2/2020 5:49 AM
105	Financial support for individual physicians; mental health support/ breaks to avoid burnout; more PPE so we don't have to re-use	6/2/2020 4:27 AM
106	Accurate information during reopening about ongoing infection risks, continue emphasis on education for the public, support to continue tele-health	6/1/2020 11:02 PM
107	Financial assistance	6/1/2020 7:59 PM
108	Federal legislation that specifically targets non-hospital system owned primary care for assistance.	6/1/2020 7:47 PM
109	God's abiding grace	6/1/2020 7:28 PM
110	funding - our physician owners have not gotten paid since Mar 1 so that we can pay our staff	6/1/2020 7:16 PM
111	- Financial support from the government - our county just entered phase 1 today & pts are too afraid to come in - the 2 operating rooms I use are still not doing cases - too much overhead with too little revenue	6/1/2020 6:19 PM
112	PPE, disinfecting agents (lysol, etc.)	6/1/2020 1:13 PM
113	Secure appropriate PPE (not what CDC suggests as a response to supply chain and not science). I'm offended that all others in health care are getting hazard pay but critical care & ED physicians are not in Maryland.	6/1/2020 12:11 PM
