

Earnest L. Carter, M.D., PhD
Health Officer, Prince George's County
1701 McCormick Drive
Largo, MD 20774

Dear Doctor Carter:

We are reaching out to you on the behalf of the practicing Community Physicians and their office staff who are calling us on daily basis inquiring about the process of how they can get access to the vaccine. They have been told by the local hospitals to contact the Health department but unfortunately, they have not received any guidance.

Our attempts to contact someone at your office to guide us on this matter has not yielded any results. We are sure your office is being stretched dealing with the surge. However, most respectfully, other Counties have established a process.

We represent nearly 500 physicians who are actively practicing in our County. They and their staff come in to contact with numerous COVID patients.

Your prompt intervention will be much appreciated.

Sincerely,

Gurdeep Singh Chhabra
