The Maryland Department of Health invites all healthcare workers and environmental services staff to the Centers for Disease Control and Prevention's Project Firstline!

CDC's Project Firstline is a collaborative of diverse healthcare and public health partners that aims to provide engaging, innovative and effective infection control training for frontline healthcare workers as well as members of the public health workforce.

Online Independent Study: Please visit the **MDH PROJECT FIRSTLINE** site and select one or more of the **FREE** infection control courses, one of which is a core course in Spanish. We encourage you to take all applicable courses and to share this site with others.

CDC PFL Certificates of Completion are awarded for each course.

1. First, scan the QR code or go to project-firstline-mdh.nextthought.io.
2. Select "**Get Started**" and follow the directions to create your account.
3. Once you are logged in, click on "**How to Register for a Course**."
4. Additional instructions, including how to earn CMEs, CNEs or CPEs, are posted.

Group Training Sessions: We can provide a **FREE** instructor, in-person or virtually, to lead group sessions. If you would prefer to lead a group session for your facility, we will provide the presentation materials to you. Please scan the QR code or click the request form link to complete and submit your request. We will respond promptly to plan your group training session.

We encourage you to take advantage of this **FREE** infection control training with updated resources from the CDC.

If you have any questions, please email mdfirstline@hqi.solutions.
