Quick and transparent **A/R Recovery.**

As rejected and incorrect claims build up, we understand it may be hard for your practice to keep up. Send us your EDI 837 & 835 files and we'll send you A/R recovery projections immediately.

Front office automations.

At the point of service, you'll have real-time information on patient balance, insurance policy coverage and patient related denials.

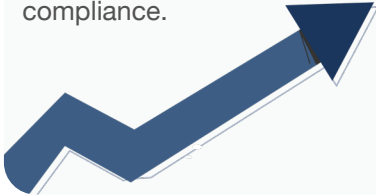

Real-time verifications to make sure your appointments match the number of billed claims.

Up-to-date coding guidelines

ICD-10

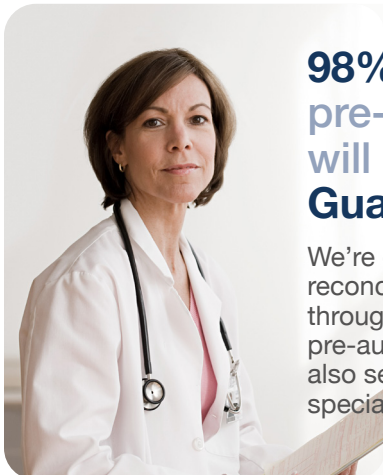

Quick reimbursements

Sending clean claims using smart alerts to reduce your incomplete visits and avoiding human errors on insurance compliance.

No more denials.

Our application has built-in knowledge your payor rules and auto-tracks the services that must be paid to you.

98% of your pre-authorizations will be approved. Guaranteed.

We're eliminating time spent on reconciling prior authorizations through our expert team of pre-authorization billers. We also serve multiple different specialities.

Don't wait until you're drowning in medical billing to reach out.
