**THE CENTER FOR A HEALTHY MARYLAND, AFFILIATE OF MEDCHI  
RECEIVES NEW GRANT FROM THE PHYSICIANS FOUNDATION**

*Center for a Healthy Maryland, Inc. is Awarded its Second Physicians Foundation Grant  
to Establish the Physician Leadership Institute at the Center for a Healthy Maryland*

**BALTIMORE, MD** (February 11, 2013) – The Physicians Foundation has awarded the Center for a Healthy Maryland, Inc., an affiliate of MedChi, The Maryland State Medical Society, a grant in the amount of \$75,000 for the establishment of the Physician Leadership Institute at the Center for a Healthy Maryland. This innovative project will create resources and educational programming to identify, train, and cultivate physician leaders for organized medicine and encourage leadership in external organizations which are active in transforming healthcare.

“The Physicians Foundation is committed to helping doctors build leadership skills and continue in their development,” said Lou Goodman, Ph.D., president of The Physicians Foundation and CEO of the Texas Medical Association. “As physicians navigate today’s challenging practice environment, a focus on physician leadership training is vital for continued healthcare excellence.”

“We are very pleased that the Center for a Healthy Maryland at MedChi has again been recognized for our extensive experience in physician training and advocacy,” said Gene Ransom, CEO of MedChi, The Maryland State Medical Society. “Susan D’Antoni, Executive Director of the Montgomery County Medical Society, anticipates that “the Physician Leadership Institute will serve as a model for other state medical societies and physician professional organizations in engaging potential leaders and empowering them to seek leadership opportunities.”

The Center for a Healthy Maryland (formerly MedChi Foundation) is an affiliate of MedChi, The Maryland State Medical Society. The Center’s mission is to advance the practice of medicine, enhance the quality of medical care, and promote the health of the citizens of the State of Maryland. The Center’s programs are directed at the public to improve health status, and also focus on quality improvement and education, with programs for physicians to help them to better serve their patients. The Physicians Foundation is a nonprofit 501(c)(3) organization that seeks to advance the work of practicing physicians and help facilitate the delivery of healthcare to all patients. It pursues its mission through a variety of activities including grantmaking, research, white papers and policy studies. Since 2005, The Foundation has awarded numerous multi-year grants totaling more than \$28 million. In addition, The Foundation focuses on the following core areas: physician leadership, physician practice trends, physician shortage issues, and the impact of healthcare reform on physicians and patients. As the healthcare system in America continues to evolve, The Physicians Foundation is steadfast in its determination to strengthen the physician-patient relationship and assist physicians in sustaining their medical practices in a difficult practice environment.
