CMERC will conduct fifteen (15) provider reviews for reaccreditation in 2017.

MedChi lost three providers from its system in 2016, all were due to a decision made by those organizations to drop accreditation due to reorganization and hospital system consolidations.

Currently there are forty-four (44) providers in the MedChi Accredited Provider System from Maryland and the District of Columbia.

The MedChi was resurveyed by the Accreditation Council for Continuing Medical Education (ACCME) and awarded Accreditation with Commendation for 6 years as a provider of continuing medical education for physicians. This is the second time that MedChi’s CME program has achieved this highest rank of Accreditation.
