CME Report 1-23 - INFORMATION

INTRODUCED BY: Council on Medical Economics

SUBJECT: Report of the Council on Medical Economics

The Council on Medical Economics designed and hosted a series of “physician empowerment” programs to address physicians’ financial and practice management issues. The November 2022 House of Delegates meeting kicked off with a “Physician Empowerment Summit” featuring a panel discussion on value-based care and breakout session for employed and private practice physicians.

The summit was followed by a series of webinars:

January 26, 2023 CPT Evaluation and Management: Important Guideline Changes

February 23, 2023 Strategy Session: Effective Worker Retention

March 30, 2023 IT Interoperability: How Can We Make it Work?

April 27, 2023 RPM, E-Prescribing, and More

May 25, 2023 Listening Session: What are Your Pain Points?

The well-attended series has offered physicians and practice managers the opportunity to interact with experts while empowering them to improve their practice viability.
