

Report to the Spring House of Delegates

Clement S. Banda, M.D., Vice President

HealthyMaryland.org

April 30, 2023

This year marks the 45th Anniversary on MPHP. We've planned a year of CME lectures and in-person social events to celebrate and fundraise.

- **Thursday, April 13th** – Lecture I was a virtual meeting with Dr. Christina B. Feather presenting on “*How the Evolution of Our Professional Career and Wellness Collide: Understanding the Changing Needs of Providers.*” The lecture was well received.
- **Saturday, May 13th** - “Dinner and a Show with the BSO” entitled **Jazz Nights**, will also be a fundraiser for the MPHP this year. This is always an enjoyable night.
- **Thursday, June 8th** – Lecture II, Dr. Greg Hobelmann will speak on “Stigma: The Breadth of the Problem and How to Minimize it in Treatment, Support and Care”

We will be taking a more aggressive position in fundraising for MPHP. This Fundraising campaign will allow MPHP to ...

- **Expand Program Offerings** - offer focused wellness and self-care programs, specific problem-focused educational and support groups, and peer coaching and support.
- **Expand Outreach** –reach more providers and to implement early intervention, while expanding Provider Wellness awareness.
- **Establish Research** - we cannot miss any opportunities to show the effectiveness of the PHP model and how it has helped our Maryland providers
- **Expand and Enhance Program Operations** – with expansion in other areas, we will need to expand operations, infrastructure, and staff.
- **Expand Fundraising** – Starting with this celebratory year, we look to connect with donors who understand how value our programs are to healthcare providers.

Maryland Physician Health Program
Maryland Healthcare Professional Program
Maryland Professional Rehabilitation Program

Physician Foundation - The Center for a Healthy Maryland has received a one-year grant from The Physicians Foundation to kick start our new program called “The ARRIO (Awareness and Referral to Resources to Improve Outcomes) Project - Helping Physicians Bridge Gaps in SDOH (Social Determinates of Health) Integration.” You may have received a copy in your emails.

The **Maryland Health Care Coalition Against Domestic Violence** is in the process of planning several open seminars to be presented this year. May 18th will be the first and will feature the Maryland Network Against Domestic Violence, a seminar on the knowledge and skills necessary to identify and respond to teen dating violence and technology misuse.

Maryland Physician Leadership Institute – the Center continues to partner with Med-Ed Stat LLC. The former Certificate Program in Physician Leadership, now Business of Medicine Pocket MBA Certificate Program is accepting new registrants on a rolling basis. There has been as least 2 to 3 graduates a month. The program is all virtual. We continue to update the program to make it more accessible and cater to the ever-changing needs of the physicians. Other online CME programs being offered are the Tele-mental Health Certificate and Covid-19 Physician Practice Survival Kit.

Grants and Education Division

The MedChi Museum – The, still not officially named, MedChi Museum is moving forward, and we continue to work with the History Committee and others. We continue to work with a designer on the displays. We will be moving the photos of the 50 Past Presidents from the Malouf Board Room to the Museum and re-framing them. Additionally, we will be adding the Donor Wall to the Museum.

We are preparing a Media/Reading Room.

We continue to look for sponsored exhibits from medical practices, hospitals and professional societies. We have interest for a sponsored exhibit from a pharmaceutical company. If you have suggestions, please contact Meg Fielding (mfielding@medchi.org).

History of Maryland Medicine

As previously mentioned, we are fundraising for the new medical “museum.” If you are interested in being part of the Museum committee, please contact Meg Fielding or Dr. Allan Jensen.

We will continue with our quarterly on-line appeals to the MedChi membership, culminating with the end of the annual fund in November/December. The first quarter email was in honor of **Doctors Day** on March 30. We encouraged people to **DONATE** to honor a mentor.

As **The Maryland State Medical Society Foundation**, consider donating to one of our programs...

- Dan H. McDougal, M.D. Fund
- Domestic Violence Program
- General Fund
- History of Maryland Medicine
- Maryland Physician Health Program
- MedChi Museum/Sir. Williams Osler Building Maintenance Fund

As we continue to **Support – Educate – Preserve**, we ask that you **Donate: HealthyMaryland.org**.
