INTRODUCED BY: Montgomery County Medical Society

SUBJECT: Interstate Medical Licensure Compact

Whereas, 22% of physicians nationally hold active licenses in more than one jurisdiction; and
Whereas, the Washington Metropolitan Area is composed of three jurisdictions, with many physicians practicing in all three jurisdictions; and
Whereas, the federal government has required licensure in only one state or territory for its physicians for many years without any adverse consequences; and
Whereas, the growth and advancement of telemedicine often requires that physicians be licensed in multiple jurisdictions; and
Whereas, applying for additional state licensure is an expensive and time-consuming process that is for the most part redundant and adds little additional protection to the public; and
Whereas, the Federation of State Medical Boards has adopted policy recommending that state medical boards offer an expedited licensure by endorsement process to physicians who meet certain qualifications and has developed model legislation; and
Whereas, the American Medical Association has endorsed the Interstate Medical Licensure Compact; and
Whereas, eight states have already adopted the Interstate Medical Licensure Compact and ten medical societies have endorsed it; therefore be it

Resolved, that MedChi supports adoption of the Interstate Medical Licensure Compact; and be it further

Resolved, that MedChi work legislatively in consultation with the Maryland Board of Physicians for Maryland to enter into the Interstate Medical Licensure Compact.

As amended and adopted by the House of Delegates at its meeting on September 19, 2015.
