Dear MedChi Member:

Thanks to a partnership with the Indiana State Medical Association and their Alliance, MedChi and the Alliance to MedChi are proud to provide a tool for dealing with the symptoms of post traumatic stress disorder. The screening tool will assist you to diagnose, treat and refer patients experiencing stress disorders.

MedChi members have been caring for veterans since 1799. The free PTSD Screening Tool is part of a campaign to raise awareness of this debilitating condition that affects our military and their families. With countless Maryland National Guard members on active duty in Iraq and Afghanistan, it is inevitable that some will present with post traumatic stress disorder.

MedChi encourages all physicians to use the screening tool with your military patients and their families.

Sincerely,

Murray A. Kalish, MD, MBA
President
MedChi, The Maryland State Medical Society
